

“Electromagnetic pollution (EMF) may be the most significant form of pollution human activity has produced in this century, all the more dangerous because it is invisible and insensible.”

**Andrew Weil, M.D. Author of Spontaneous Healing
and Eight Weeks to Optimum Health**

What will the QLink do about EMF? Just ask someone who wears one.

Deepak Chopra, M.D.

“The human body has 100 trillion cells, each performing millions of tasks each second. For the body to be healthy and fit, these cells have to function as a resonant, harmonious whole. The magnificence of this complex orchestration is staggering, and it is synchronized by the body’s intelligence, energy and matter fields. The QLink appears to act as an interface between these fields, effectively as the conductor of the orchestra. The data is sufficient and strong enough for me to wear the QLink and I’m looking forward with excitement when future research will validate what this initial data is suggesting. I must say I feel quite invigorated wearing it.”

Ken Wilber, Author of A Brief History of Everything

“The QLink strengthens and purifies the body's own energies. It has been scientifically demonstrated to enhance the body's ability to protect itself from harmful environmental radiations, and thus it helps to remove harmful influences on the organism's health and well-being.”

Dr. D. A. Versendaal, D.C. Founder, Contact Reflex Analysis (CRA)

“The QLink strengthens the human bioenergy system to the point where the harmful effects of electromagnetic fields (EMF) are neutralized. This results in an ordered state of biologically strengthened natural energies that improve sleep, increase energy levels, and create a necessary stream of continuing positive energy to the intrinsic batteries of the body.”

Join the hundreds of thousands who’ve already discovered more energy, enhanced mind/body balance, and strengthened resistance to the effects of stress and EMF radiation from cell phones, computers and the environment. Wear the QLink today, and discover the difference in your life.
