PHILOSOPHY

Free Lifetime Anti-Oxidant!

Magnetize Your Liquids - Supercharge Your Health!

Winner of 300 Awards! Over 30 million sold! Thousands of Thank You Letters!

Now available in Canada and the United States is a new, easy and effective way to use and benefit from magnetic therapy by drinking magnetized liquids from the Magnetic Energy Cup.

Dr. Klaus Kronenberg, California State Polytechnic University, Pomona California says: "The easiest (...form of magnetic therapy) treatment is (drinking) magnetized water, which is energy-building, activating, cleansing and detoxifying. Magnets actually change the nucleus of water"

We have been using the Cup for over 7 years with great success. The following is a short list of some effects reported by our clients.

The benefits of drinking magnetized liquids can be the following:

- Relief from digestive problems such as constipation, diarrhea, ulcers and colitis
- Improved blood circulation
- Dissolving of kidney and gall-stones
- Improvement in bronchitis, bladder infections, eye problems, high and low blood pressure, obesity, diabetes, asthma, colds, sore throats and fevers.
- Reduced acidosis in the blood and tissues and balanced body's PH (acid/alkaline level).
- Reduced arterial plaque and regulated heart function.
- Relieved pain from arthritis, PMS and lactic acid from strenuous physical workouts.
- Faster healing of skin wounds, burns, sores, infections

By holding purified water, fresh juice or herbal teas in the Magnetic Energy Cup for 5 minutes or more, your liquids become restructured, 'living' and charged with energy. The magnets in the Magnetic Energy Cup can change the actual structure of liquids, increase the negative ions (good ions), make the liquids more alkaline and increase the amount of oxygen available for your cells. Another measured benefit of magnetized water is that its surface tension is lowered, which makes the water absorb much easier through the human membranes. What actually happens is that water gains 'living' liquid energy!

The inside of the cup is a non-toxic, non-inert porcelain.

The Magnetic Energy Cup has won hundreds of awards in Health Shows in Asia and Europe and have to date sold over 30 million units.

Uses

Cleanse your cells every time you drink!

- Drinking purified water, fresh squeezed juices, herbal teas, Noni JuiceC, essential oils and homeopathic remedies. Takes 5 minutes for liquids to receive a magnetic charge. Because these are natural earth magnets, the longer the liquid remains in the cup the greater charge it will receive. We recommend always leaving water in the cup so one always has a magnetic liquid available to drink. **Note: Freshly squeezed juices should be consumed within 10 minutes.**
- Enhances the benefits of massage and essential oils, to help relieve joint and muscle pains, skin conditions, gout and arthritis, as the oils will go deeper into the skin and tissues. Excellent for speeding the healing of burns.
- Dissolving of kidney and gall-stones
- Improvement in bronchitis, bladder infections, eye problems, high and low blood pressure, obesity, diabetes, asthma, colds, sore throats and fevers.
- Great for watering plants and to keep pets healthy. Drinking from the Magnetic Energy Cup for improved health is completely safe, easy, inexpensive, and effective!

Recommendations

Please limit to 4 cups daily for the first week. Mild cleansing reactions can occur, such as loose stools. Up to 1-1.5 liters daily can be consumed for maximum benefits.

Cautions

Enhances the effects of alcohol. Can reduce the need for drugs/medications.

Please do not put in the dishwasher or microwave ovens.

Always keep a safe distance away from computers and electronic organizers as the magnets could erase the memory.

SCIENCE

Doctors' Remarks

"The easiest (...form of magnetic therapy) treatment is (drinking) magnetized water, which is energy-building, activating, cleansing and detoxifying. Magnets actually change the nucleus of water"

Dr. Klaus Kronenberg California State Polytechnic University, Pomona California

"Magnetic therapy increases the amount of oxygen to the cells"

William Philpott M.D. of Choctaw Oklahoma

On a cellular level, older, diseased or sick cells or tissues have a low magnetic charge. The liquids from the Magnetic Energy Cup becoming charged, can flush cellular wastes because they possess strong negative magnetic field, and can function as an anti-biotic and anti-viral in helping to destroy viral, bacterial and fungal infections. Because the properties of liquids are enhanced and charged with energy they can now act as an anti-oxidant every time you drink.

"Magnetized water increases the solubility of minerals and therefore improves the transfer of nutrients to all parts of the body making the organism work more efficiently"

Professor Israel Lin, of the Israel Institute of Technology

Magnetic water used on animals resulted in improved health, vitality, and increased the weight of livestock while reducing the amount of feed. Chickens better maintained weight, laid more eggs, lowered mortality rates and in a three-year study, cows yielded more milk, conceived more easily and were overall healthier with less illness. Magnetic water used with farmers resulted in faster growing crops that were more resistant to disease and yielded more and larger produce with less fertilizer.

"A negative (good) magnetic field can function like an anti-biotic in destroying viral, bacterial and fungal infections."

William Philpott M.D

Dr. Ma Yilong, Biologist in Tongji Medical University in China, discovered through experimentation, that water magnetized in the Magnetic Energy Cup, becomes "active water with negative ions."

The natural earth magnets are scientifically positioned opposite each other inside the cup wall causing a magnetic induction in the center field of the cup. This charge is an estimated 9x greater than that of an ordinary cup. All ill health conditions such as viruses, bacteria, cancers, parasites etc. are a state of low frequency due to cell toxicity. The less vibrant the cell the less circulation and the less energy. Magnetic therapy overcomes this state.

Magnetic currents positively influence the metabolism and support the formation of amino acids (the building blocks of protein)

These statements have not been evaluated by the FDA or Canadian Health Branch. Please always consult a qualified health practitioner before under going any therapy.

HISTORY

Ancient Times

Magnetic therapy has been used for centuries by Egyptians, Greeks, Romans and Chinese for eye problems, female disorders and wound healing. The famous physician, Paracelsus, said: "magnet is the king of all secrets". Magnets have been popular in Asia and Eastern Europe for the past decade and just now becoming popular in North America. Magnetic health products is now a \$3 Billion a year industry!

Modern Magnetic Therapy

NASA recognized that magnetic therapy eliminates health problems such as bone loss while traveling in space by overcoming the lack of the earth's natural magnetic field.

Today in Germany and Japan the governments health care systems approve and cover the costs of magnetic therapy. In Russia, Bulgaria, Poland & China, magnetized water is used in place of filtration.

Magnetized water removes scale mineral deposit buildup in water pipes.

In parts of Eastern Europe magnetized water is used in homes and industries.

+70-80% success reducing healing time by half, has been achieved in common conditions such as sprains, strains, headaches, muscle and back pains.

Magnetic therapy can be used to arrest killer cancer cells in animals and the treatment of glaucoma, infertility, and aging related diseases.

TESTIMONIALS

Our Clients Speak

Just 3 days ago I purchased Magnetic Energy Cup from the Whole Life Expo (Toronto Canada). The very first cup I drank I felt energy going through my upper body. On the second day I noticed major improvement in my digestion and my bowel movements became much better also. On the third day I reduced my cravings of junk foods and coffee from 4 cups a day to only desiring 1 cup. Thanks, I think this cup is really working!

Siegfried Otto November 28, 2001

This is to express my thanks for introducing the magnetized cup to help with my arthritis. I have been using it for a few months and have noticed a difference in the stiffness and pain in my hands and overall joints. I have been very pleased with the results.

Risa Fine October 26, 2001

I am astonished by the results of your Magnetic Energy Cup. I have had candida and bad constipation for many years. I have tried all kinds of intestinal probiotics and other products to no avail. Within three weeks on the Magnetic Cup I have relived the constipation and nearly all of the candida symptoms! I am amazed. Thanks.

Name and initials held by request - Nutritionist October 2, 2001

One of our 3 cats has had an on going problem with sensitive digestion and an infected eye. I have tried everything from different foods to antibiotics - nothing worked long term. In desperation I put all three cats on the magnetic water - the results have been nothing short of spectacular. The weeping eye has cleared up and the throwing up has almost completely disappeared. What an incredible product. Thank you,

Susie Adelson September 24, 2001

Dear Ones,

Thank you! The 2 cups I ordered for myself and 1 for my mom arrived. I am quite thrilled with them. Have noticed an increase in my endurance when I hike. I have been reading the Kryon books (esp. book 8 pg.276-277) (you can find them in the Omega Bookstore) and they say that Magnetized Water (!) will be the great healing therapy of the future. I am so thrilled that the future is Now! You are in tune with the medicine of the Future! Sincerely,

Susan Adams September 20, 2001

I drank 3 times a day from the Magnetic Energy Cup since June 2001 and in only 3 months I have noticed that all the fat deposits in my lymph nodes under both my arms have disappeared. Even my doctor noticed and was impressed. Before my blouses were tight, I had swelling, and soreness. Now my blouses fit, swelling is totally gone and no more soreness. The cup worked wonderful!

Sally September 18, 2001

I have a greater sense of well-being and energy over the last month, which may coincide with my use of the Magnetic cup over that time period.

Daniel September 9, 2001

Dear Forever Healthy,

Since I have been a teenager I have had a persistent cough that has gotten very serious over the years. I am now 72 years of age. This cough goes from October to May and can last 2-3 months, every year. It becomes very violent at times and I often cough up blood. I have tried anti-biotics for years and they did nothing but ruin my digestive system. I purchased a Magnetic Energy Cup two months ago and drink from it daily. This year my cough only lasted two weeks! I am very happy! Thanks for a great product.

Sam Bowden September 8, 2001

This is just a brief note to say I have been using the Magnetic Energy Cup for about 2 months now and I have noticed a definite increase in my energy level. It also seems that my skin seems to have improved as well. I have recommended this cup to at least 10 friends and family members & today purchased 5 additional cups for my wife and kids. Thanks,

Jody Hatt August 9, 2001

Dear Forever Healthy,

Since I have been using the Magnetic Cup drinking about 6 cups a day in the last 4 weeks, I definitely notice that my skin is better and my teeth have less plaque and feel much cleaner. Also the best is that my energy is definitely increased. Thanks,

Patrick Beazley August 8, 2001

Our Clients Speak

I am a 76-year-old diabetic. I always feel tired and weak. But as soon as I started drinking from the (Magnetic Energy) cup I started to feel much better, more energy and not tired anymore. I always keep my 2 cups full of water. So today I am purchasing 2 more cups so I have 2 for water and 2 for my fresh juices.

H. Scholl August 2, 2001

The Magnetic Energy Cup is a must have for every one! It's definitely on my gift list for friends and family. I have been drinking 6-8 glasses of water from my Magnetic Energy Cup for over two months and definitely feel more energized and even healthier! I have noticed better circulation in my hands and feet, as they often seem to be cold, now they are warm! My skin appears rosier and healthier too. I look forward to drinking from my Magnetic Energy Cup first thing in the morning and it gives me a boost that lasts throughout the day as opposed to morning coffee, which makes me feel zapped by the afternoon. Thank you for a remarkable product with benefits to last a lifetime!

D. Pickersgill August 2001

As you know I was very reluctant and skeptical to purchase the Magnetic Energy Cup but since I started using it I noticed that the cup makes drinking 8 glasses of water a day easier. Also I can not believe when I put my bitter strong tasting herbs in the cup, I can tolerate them so much better as they taste so much smoother going down. In the 10 days drinking from the cup I have almost seen a corn on my foot disappear after having it for many months. I cannot really explain it but I just feel better drinking from the Magnetic Energy Cup. Well I am impressed enough to buy another cup today so now I have one at home and one at work.

J. Miller July 27, 2001

Wow, lucky me! On Father's Day I was given a Magnetic Energy Cup! I experienced a great change in my well-being, that I just have to tell. I am soon to be 77 years of age and have noticed I have more energy, which is great as I have a 78-year-old wife to keep up to! For some time I have had to use laxatives but not since using my Magnetic Energy Cup, my bowel is now functioning well. I have also had a skin rash for a long time, which has cleared up since drinking 6-7 glasses of water from Magnetic Energy Cup. I also have noticed my stomach doesn't feel bloated and therefore my waistline seems a little smaller. In general, I just feel great and love my new cup, thank you!

J. Pickersgill July 2001

My 4-year-old son had black spots on his teeth for the last year. I started giving him magnetized water from the Magnetic Energy Cup and the spots started dissolving! It's been a month and a half and the spots are almost completely gone! We did not change anything else, and we tried many other things, so I think the Cup is working really great! Thank you,

L. Fistic June 7, 2001

I soaked some seeds in the Magnetic Energy Cup before sprouting and they grew five times faster than normal! I was really impressed!

James June 7, 2001

The Magnetic Energy Cup definitely makes me feel better. I use it every day, but last week I went away for 4 days without the Cup and did not feel so good. As soon as I started using the Energy Cup again, I started to feel better right away. I can't explain it but I just make sure I drink from it daily. Thanks for a great product!

M. Peters June 5, 2001

I'm using the Magnetic Energy Cup on a consistent daily basis, actually I never leave home without it! I have noticed various improvements to my wellness, but one drastic change is the bruising on my leg, caused due to a leg operation in April 2000, is rapidly disappearing. I'm really excited, as with summer around the corner, I'll be baring my legs! Which was not a possibility before using the Magnetic Energy Cup! So thanks so much. Sincerely,

E. Johnson March 2001

Since using the magnetic cup for 4 weeks and drinking 2 cups of magnetized water daily, I am more energized. There has also been a great improvement in the function of my digestive system. I no longer have to take fiber supplements!!!

M. Siegal February 2001

I have had a stomach digestive problem for over one year. I have tried enzymes and many other supplements that did not correct the problem. Within two weeks drinking from the Magnetic Energy Cup, I have eliminated my stomach digestive problem. Thank you so much for a great product.

MJ September 2000

FREQUENTLY ASKED QUESTIONS

Q. What are the 2 holes on the bottom of the Magnetic Energy Cup?

A. The holes are a part of the mold for manufacturing purposes only.

Q. How far away should I keep the Magnetic Energy Cup from electronic equipment?

A. Although the Magnetic Energy Cup is somewhat shielded, we recommend keeping it at least 2 feet away from computer towers not the monitor unless the memory drive is located there as in some Macintosh computers. Also keep it away from all laptop computers, electronic organizers or any electronic equipment with a memory. Fully read all product information on electronic equipment to be sure you are complying with manufacturer's recommendations.

Q. Can someone with an electronic heart pacemaker use the cup?

A. Check with your doctor. The safest thing to do in this case we do not recommend using the cup to directly drink from. Instead have someone else charge the liquid in the cup and transfer it into a regular cup so the person with the pacemaker never actually touches the cup! Leave liquids in the Magnetic Energy Cup for 5 minutes or more to receive a 'charge' then pour the liquid into a glass or a regular cup to drink from. The liquids will retain the charge for up to 30 minutes. It might be ok for the person with a pacemaker to use the cup but keep there arms extended transferring the water.

Q. How long does the Magnetic Energy Cup last?

A. The natural earth magnets in the Magnetic Energy Cup will retain 98% of full strength for approximately 120 years.

Q. Is there any way to damage the magnets?

A. If the cup sustains a high impact or very high temperatures of over 200 degrees for a long enough period of time the magnets could lose their strength.

Q. How do I know the Magnetic Energy Cup is working?

A. Within five minutes you should be able to tell a difference in the texture of the water. The water in the cup should have softer and creamier texture. The reason for this is that magnets lower the surface tension of the liquid after 5 minutes or more. The best way to understand this is to imagine a drop of water the size of a dime on a flat surface. After liquids sit in the Magnetic Energy Cup for 5 minutes or more that dime size drop of water would spread out to the size of 8x11 piece of paper. This makes the liquid better and easier absorbed in the body. The reason for so many benefits is not only that the water is absorbed deeper into the connective tissues, but because it also has a 'charge' of more negative (good) ions so your body is getting more oxygen into the organs, veins, tissues, joints to dissolve the acidic build-up and flush out the toxins! So if you notice better digestion, aches and pains disappearing, more energy... well now you know why!

Q. What kind of magnets is in the Magnetic Energy Cup?

A. A unique, award winning design with north and south pole magnets allows the Magnetic Energy Cup to charge the water in as little as five minutes!

Q. How do I clean the Magnetic Energy Cup?

A. We recommend using plain, mild natural soap and warm water. Do not soak or immerse the cup in water. Just rinse under running water, and please do not ever put the cup in the dishwasher or microwave.

Q. Do I always have to wait 5 minutes for the liquid to get a magnetic charge?

A. You can speed up 'super-charging' your liquids by stirring with a spoon. They will be charged in only 2 minutes instead of waiting the full 5 minutes!

Q. What happens if I put alcohol in the Magnetic Energy Cup?

A. We have had many customers report that it dramatically enhances the effects of alcohol. Because the Magnetic Energy Cup magnets increase absorption, you will feel the effects of alcohol much sooner and by consuming much less than normal amounts when using the Cup. We also have massage and aroma therapists praise the enhanced effects of therapeutic oils for improving all kinds of conditions when used out of the Cup.

Q. What if I put foods in the Magnetic Cup?

A. We have two reports from customers. One gentleman said his seeds sprouted 5 times faster than normal when he soaked them in the Cup. Another client reported putting their spicy salsa in the cup for a few minutes. When compared to the salsa in a regular bowl, the salsa from the Magnetic Energy Cup tasted much more spicy and delicious! We find that whatever you put in the Magnetic Energy Cup will enhance the flavors, potency, absorption and health benefits.

Q: Are there any precautions to using drinking magnetized liquids if one is pregnant?

A: Our normal advice to someone starting with the cup is to drink no more than 4 cups per day for the first week. Then week number two one can drink up to 2 litres a day. For pregnancy or nursing mothers just beginning to use the cup we recommend a slower transition to reaching the maximum of 2 litres daily. Pregnant or nursing mothers begin with one cup, 8-10 ounces a day for the first week and add one cup per week for 6-8 weeks until reaching 6-8 cups daily.
