

About QLink

All around us, multiple electronic devices, bombard us with damaging electro magnetic radiation. Is it any wonder our bodies lack vitality and much of the time we feel uneasy.

The **QLink** will assist you in living life fully and feeling:

- More energetic
- Minimize the effects from jet lag
- Physically alive
- Feeling fully rested after sleep
- More calm
- More mental alertness, awareness and clarity
- Less stress and anxiety free
- Increased sense of well being and confidence

The damaging and negative effects of the modern lifestyle are well documented. The **QLink** is a life-enhancing tool that works to neutralize the imposing unnatural EMF's (Electro Magnetic Frequency) that can disrupt your energy, invade and unbalance our bodies natural human frequency. EMF's add stress and fatigue to your system. Stress is now a serious modern pandemic.

The QLink, Sympathetic Resonance Technology-2 and SRT2 are registered Trademarks of Clarus Products International, L.L.C.

How it works

QLink employs a new technology called Sympathetic Resonance Technology-2, also know as SRT-2. SRT-2 uses subtle micro-vibrational frequencies to strengthen and balance the body's energy system. Clarus (U.S.A.) has developed this technology recognized by scientists from Stanford University and the The University of California.

In biological terms, the **QLink** restores our subtle body balance and harmonies by helping to regulate the homeostasis of the body. "Homeostasis is the condition of equilibrium, the "dynamic range or balance" where the body's multiple systems operate together and resonate at their optimum.

There are three key hardware components inside the **QLink** pendant:

- The Resonating Cell that is the size of a watch battery, is made of a unique combination of crystalline elements. It vibrates (emits frequencies) when placed on or near a person's body.
- The Tuning Board. The 14-karat gold plated Tuning Board ensures that the resonating cell permanently vibrates in the right frequency range. It keeps your **QLink** "in tune" so it never needs adjusting.
- The Amplifying Coil is 75 feet of copper wire wound into a one-inch diameter "speaker coil". The **QLink** amplifies your bodies on micro-vibrational field, so it surrounds the entire body.

Both alternative and traditional doctors have tested all **QLink** Products and unanimously report the **QLink** neutralizes the EMF mind/body stress effects from computers, cell phones and other electronic devices. Studies by one researcher suggest that the **QLink** can slow cellular breakdown. Studies have been undertaken on live blood analysis/morphology. Tests have also been conducted on stress effects (particularly related to electromagnetic fields) on brain waves and energy levels. In addition, researchers have successfully completed double-blind studies and in-vitro tests supporting the existence of actual rather than placebo effects. All prove the positive scientific and real benefits of **QLink**!

What Others Say About QLink

The **QLink** has been said to take strokes off your golf game, give professionals an energy advantage and also personally enhance one's life with being more focused and balanced.

*"The human body has 100 trillion cells, each performing millions of tasks each second. For the body to be healthy and fit, these cells have to function as a resonant, harmonious whole. The magnificence of this complex orchestration is staggering, and it is synchronized by the body's intelligence, energy and matter fields. The **QLink** appears to act as an interface between these fields, effectively as the conductor of the orchestra. The data is sufficient and strong enough for me to wear the **QLink** and I'm looking forward with excitement when future research will validate what this initial data is suggesting. I must say I feel quite invigorated wearing it."*

DEEPAK CHOPRA, M. D.

*"The **QLink** strengthens and purifies the body's own energies. It has been scientifically demonstrated to enhance the body's ability to protect itself from harmful environmental radiations, and thus it helps to remove harmful influences on the organism's health and well-being."*

KEN WILBER

Author of A Brief History of Everything

*"The **QLink** strengthens the human bioenergy system to the point where the harmful effects of electromagnetic fields (EMF) are neutralized. This results in an ordered state of biologically strengthened natural energies that improve sleep, increase energy levels, and create a necessary stream of continuing positive energy to the intrinsic batteries of the body."*
